## Why Germany?

Germany is Europe's biggest economy and one of the largest exporters in the world. Its geographical location in the centre of Europe and highly developed infrastructure enables it to act as a gateway to the region.

Germany has a strong and stable economy, a significant consumer market and a dependable legal and regulatory framework, making it the location of choice for many international businesses entering or expanding in the European market. Setting up a company or subsidiary in Germany can also provide further benefits such as tax preferred share deals for real estate transactions and limited liability for directors and foreign shareholders, depending on the chosen company form.
